

SHAPING A *LEGACY OF* LEADERSHIP

Empowering women to lead in their own way with the CEW Leaders Program

CEW

Cultivating the *next generation* of female *leaders*

*A program designed by women for women,
that amplifies their individual strengths as leaders.*

The CEW Leaders Program is an exclusive, six-day journey designed to prepare you for executive leadership. This immersive experience will guide you in understanding your current position in your leadership journey, identifying where you aspire to be, and providing the practical tools and actionable strategies to realise and reach your full leadership potential.

Leaders can expect:

Self reflection and Personal growth.

Our program emphasises self-awareness and personal growth, intertwining personal and professional development to create intentional and effective leaders. Through introspection and guided reflection, you'll align your personal values with your professional goals, ensuring a cohesive leadership approach.

Learning from CEW Members.

Built around the invaluable insights and experiences shared by our distinguished CEW Members. Leaders will engage in small group coaching, dynamic discussions, and collaborative activities that foster deep learning and connection. This face-to-face interaction offers a unique opportunity to learn from the lived experiences of successful leaders.

Strengths based development.

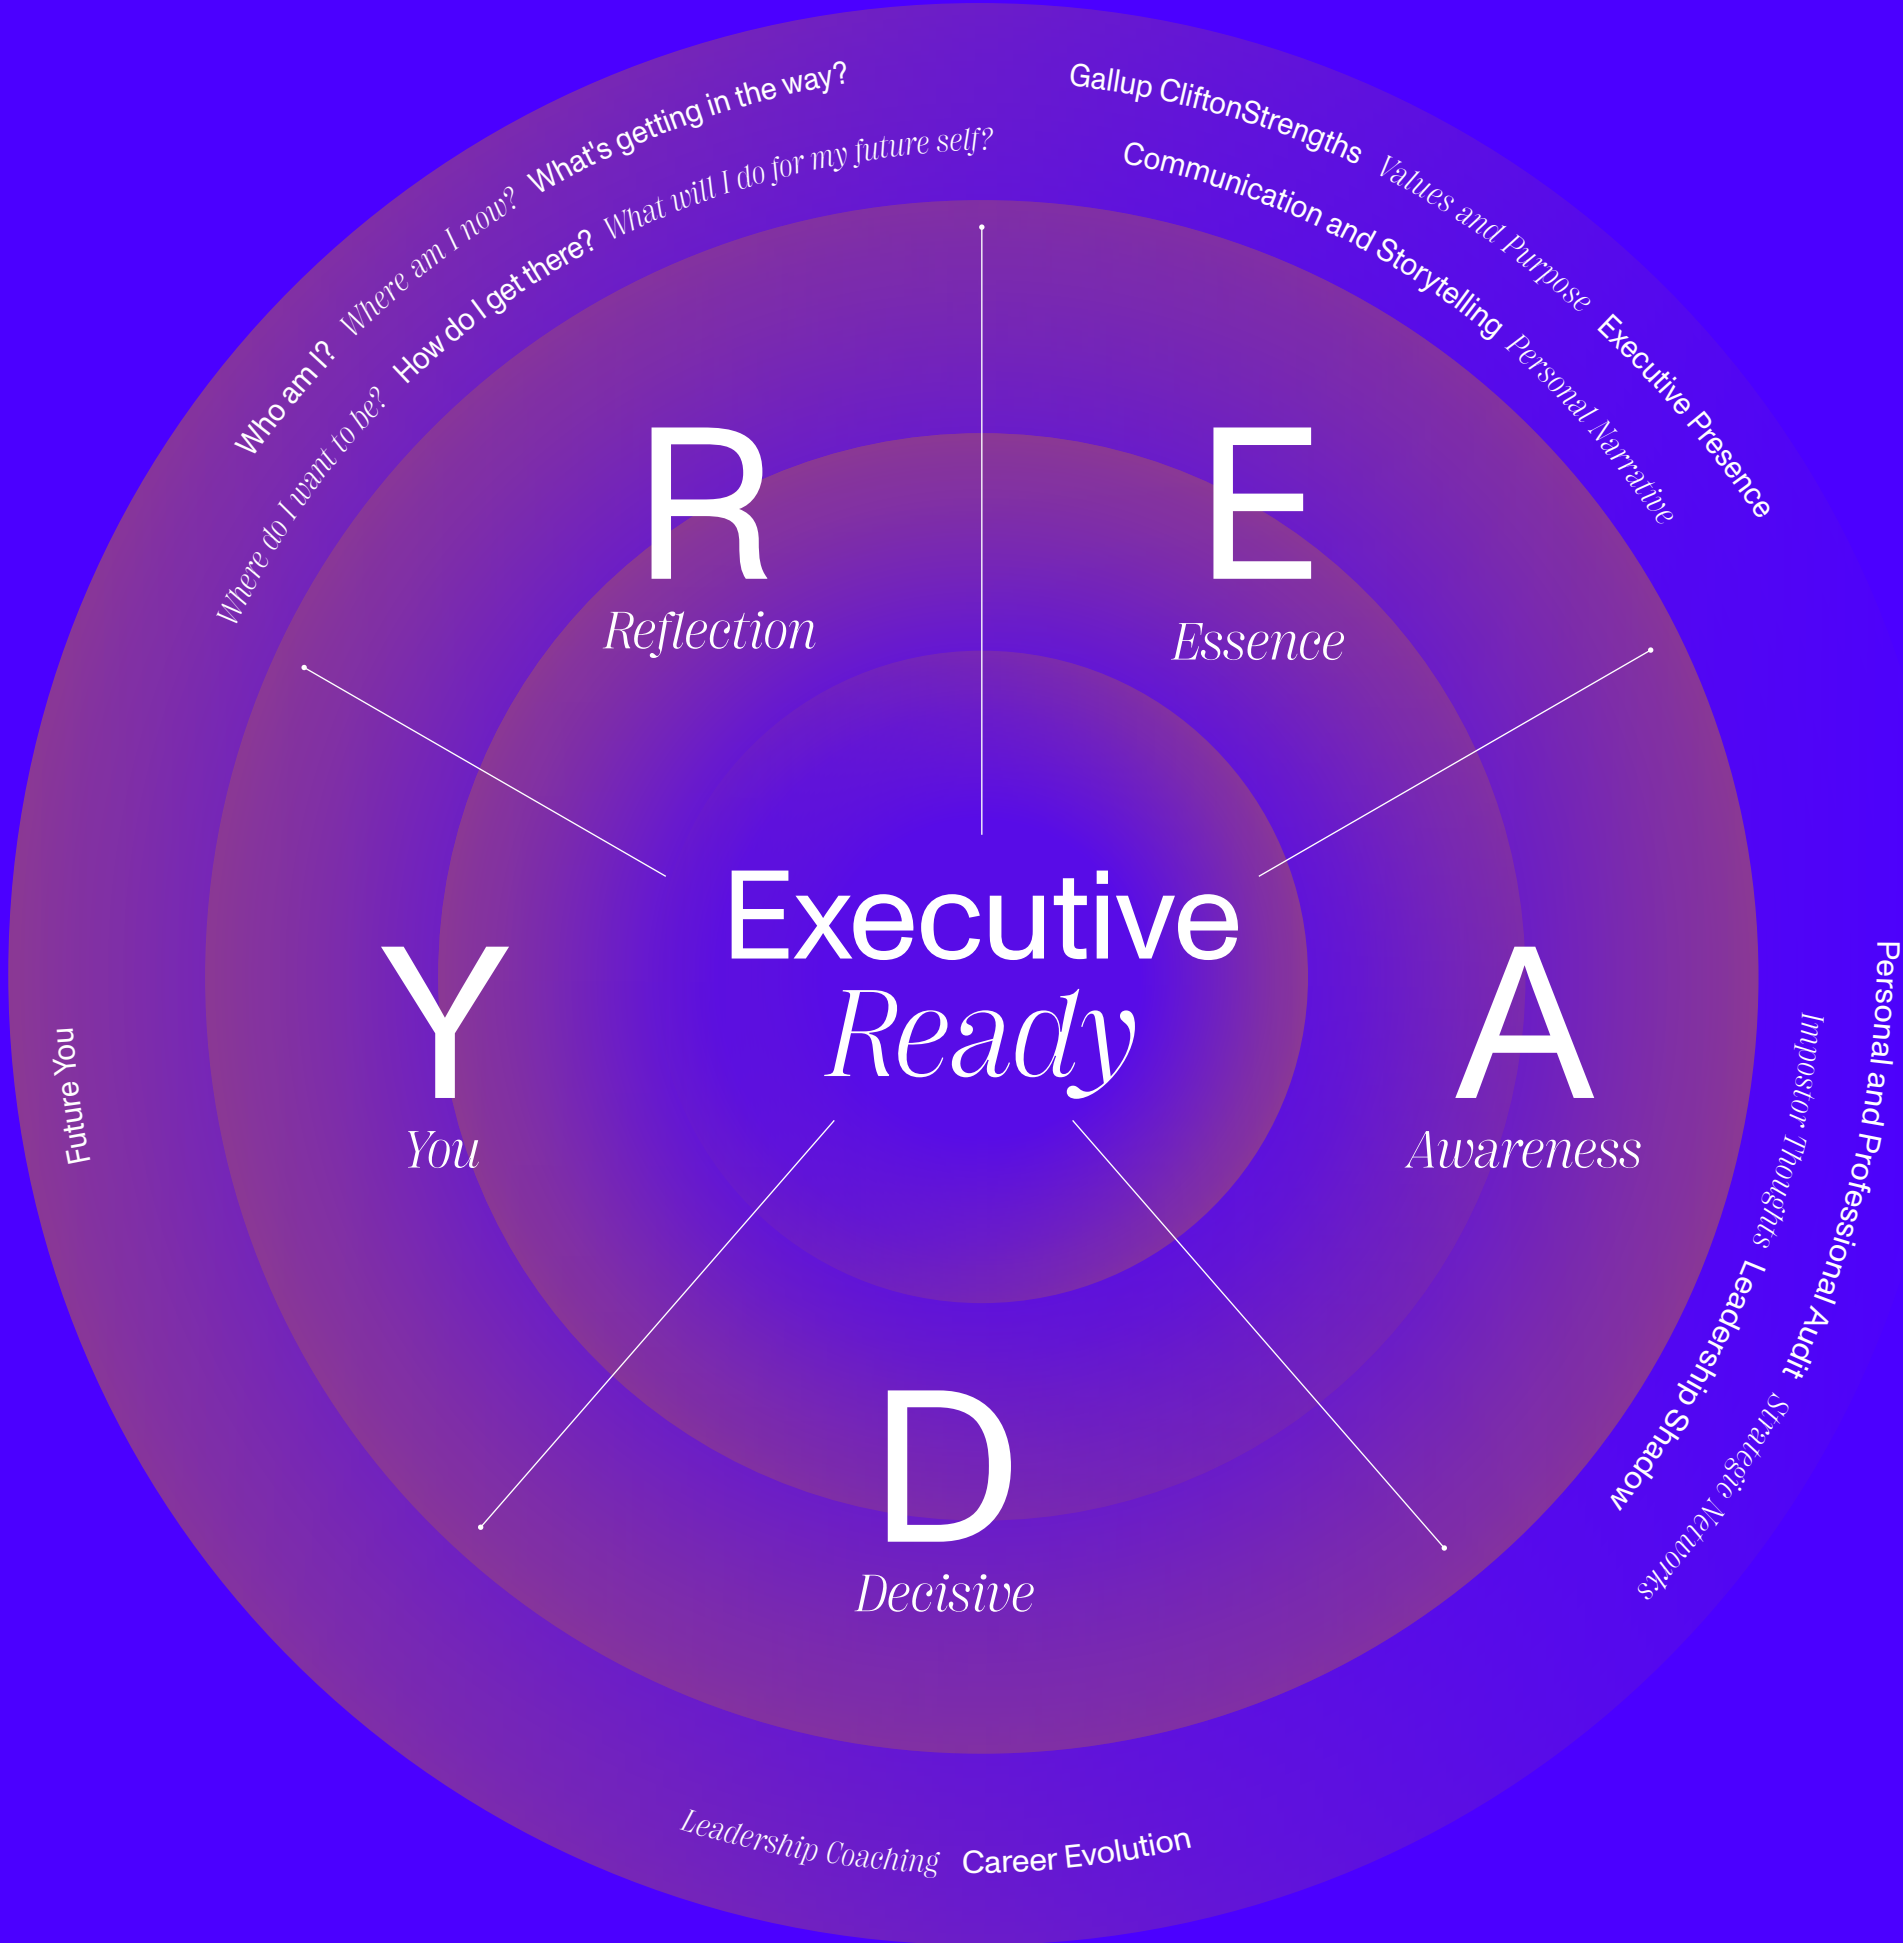

Utilising the Gallup CliftonStrengths diagnostic tool, we introduce a leadership language that focuses on amplifying your individual strengths and leveraging them within a team context. This approach not only enhances personal growth but also fosters effective team dynamics.

Join a network of Executive Ready Leaders.

Our program alumna highlight the transformative impact of the CEW Leaders Program, citing the dedicated time for deep reflection and the exchange of wisdom as pivotal to their development. The program's carefully curated journey ensures you receive the support and insights needed to navigate your path to exceptional leadership.

The *Ready* Effect

With our research and expertise in women in leadership, we have refined the elements that contribute to executive readiness, shared by our speakers and facilitators through their own lived experience.
